GRAPHENE 3D LAB INC.**NOTES TO UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIODS ENDED FEBRUARY 29, 2016 AND FEBRUARY 28, 2015**

(Expressed in US Dollars)

1. NATURE OF OPERATIONS

Graphene 3D Lab Inc. (the "Company"), formerly MatNic Resources Inc. ("MatNic"), was incorporated pursuant to the British Columbia Business Corporations Act on January 17, 2011. On August 8, 2014, the Company acquired Graphene 3D Lab (U.S.) Inc. through a reverse acquisition transaction described in Note 3. The historical operations, assets and liabilities of Graphene 3D Lab (U.S.) Inc. are included as the comparative figures as at and for the period ended May 31, 2014, which is deemed to be the continuing entity for financial reporting purposes. Graphene 3D Lab (U.S.) Inc. was incorporated on September 3, 2013 in the State of Delaware, U.S.A.

Concurrent with the closing of the reverse acquisition transaction, MatNic changed its name to Graphene 3D Lab Inc. and effected a change in directors, management and business. On August 11, 2014, the Company's common shares resumed trading on the TSX Venture Exchange ("TSX-V") under the symbol "GGG."

On December 9, 2015, the Company completed its acquisition of Graphene Laboratories Inc. ("GLI") by way of a share exchange agreement described in note 4.

The Company's principal business is the development, manufacturing and marketing of proprietary composites and coatings based on graphene and other advanced materials. The Company's wholly owned subsidiary Graphene Laboratories Inc. currently offers over 100 graphene and related products to its client list. The Company's 3D printing division offers a portfolio of specialty fused filament fabrication filaments. The Company also holds new proprietary technology encompassing the preparation and separation of atomic layers of graphene.

The address of the Company's principal place of business is at 4603 Middle Country Road, Calverton, New York.

2. BASIS OF PREPARATION AND CONTINUING OPERATIONS**a) Statement of Compliance**

These condensed interim consolidated financial statements are prepared in accordance with International Accounting Standard ("IAS") 34 - Interim Financial Reporting under International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB"). These condensed interim consolidated financial statements follow the same accounting policies and methods of application as the most recent audited financial statements of the Graphene 3D Lab (U.S.) Inc., except for the accounting policies which have changed as a result of the adoption of new and revised standards and interpretations which are effective June 1, 2015. These condensed consolidated interim financial statements do not contain all of the information required for full annual financial statements. Accordingly, these condensed consolidated interim financial statements should be read in conjunction with the May 31, 2015 audited financial statements, which were prepared in accordance with IFRS as issued by the IASB.

b) Basis of Consolidation

These condensed interim consolidated financial statements incorporate the accounts of the Company and its wholly-owned subsidiaries Graphene 3D Lab (U.S.) Inc. and Graphene Laboratories Inc. All significant intercompany transactions and balances have been eliminated on consolidation.

These consolidated financial statements were approved and authorized for issuance in accordance with resolution from the Board of Directors on April 27, 2016.

FOR THE PERIODS ENDED FEBRUARY 29, 2016 AND FEBRUARY 28, 2015**

(Expressed in US Dollars)

2. BASIS OF PREPARATION AND CONTINUING OPERATIONS (continued)

c) Going Concern

These condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of operations for the foreseeable future. As at February 28, 2016, the Company has an accumulated deficit of \$5,922,347 and has generated negative cash flows from operations. These factors raise significant doubt about the Company's ability to continue as a going concern. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, and generating profitable operations in the future. There is no guarantee that the Company will be able to raise this additional financing. These consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

d) Accounting Policies

These condensed interim consolidated financial statements have been prepared using the same policies and methods of computation as the annual consolidated financial statements of the Company for the year ended May 31, 2015. Refer to note 3, *Summary of Significant Accounting Policies*, of the Company's annual consolidated financial statements for the year ended May 31, 2015 for information on the accounting policies as well as new accounting standards not yet effective.

3. REVERSE ACQUISITION TRANSACTION

On August 8, 2014, MatNic acquired 100% ownership of Graphene 3D Lab (U.S.) Inc. by issuing 25,600,000 of its common shares and 4,500,000 common share purchase warrants (the "Transaction"). For accounting purposes, the acquisition is considered to be outside the scope of IFRS 3 *Business Combinations* ("IFRS 3") since MatNic, prior to the acquisition did not constitute a business. The transaction is accounted for in accordance with IFRS 2 *Share-based Payment* whereby Graphene 3D Lab (U.S.) is deemed to have issued shares and share purchase warrants in exchange for the net assets of MatNic together with its listing status at the fair value of the consideration received by Graphene 3D Lab (U.S.) Inc. The accounting for this transaction resulted in the following:

- (i) The consolidated financial statements of the combined entities are issued under the legal parent, MatNic, but are considered a continuation of the financial statements of the legal subsidiary, Graphene 3D Lab (U.S.) Inc.
- (ii) Since Graphene 3D Lab (U.S.) Inc. is deemed to be the acquirer for accounting purposes, its assets and liabilities are included in the consolidated financial statements at their historical carrying values.

Since the share and share-based consideration allocated to the former shareholders of MatNic on closing the Transaction is considered within the scope of IFRS 2, and the Company cannot identify specifically some or all of the goods or service received in return for the allocation of the shares and warrants, the value in excess of the net identifiable assets or obligations of MatNic acquired on closing was expensed in the consolidated statement of comprehensive loss as listing fee expense.

The listing fee expense in the amount of \$1,463,214 is comprised of the fair value of common shares and warrants of the Company retained by the former shareholders of MatNic, the warrants issued to convertible promissory note holders as well as other direct expenses of the Transaction.

FOR THE PERIODS ENDED FEBRUARY 29, 2016 AND FEBRUARY 28, 2015**(Expressed in US Dollars)

3. REVERSE ACQUISITION TRANSACTION (continued)

The listing fee expense is summarized as follows:

Net working capital deficiency assumed:	\$
Accounts payable and accrued liabilities	171,358
Receivables	(59,112)
Cash	(535)
	<hr/> 111,711
Common shares deemed to be issued re MatNic (6,367,500 shares at US\$0.091 (C\$0.10) per share)	578,970
Warrants deemed to be issued re MatNic (3,000,000 warrants exercisable at US\$0.0675 (C\$0.075) until February 27, 2017)	228,000
Warrants issued to convertible promissory note holders (4,500,000 warrants exercisable at US\$0.064 (C\$0.07) until August 8, 2017)	358,000
Sponsors fee, legal and disbursements	59,306
Legal and other transaction costs	127,227
	<hr/> 1,351,503
Listing fee expense	<hr/> 1,463,214

The Company has estimated the fair value of the equity instruments deemed to be issued by MatNic. The fair value of the common shares amounted to \$578,970, based on the trading value of the MatNic shares at the time of the agreement being \$0.091 (C\$0.10) per share. The fair value of the MatNic warrants, exercisable at C\$0.075 per share for 30 months, amounted to \$228,000. The fair value of the warrants issued in association with the convertible promissory notes, exercisable at C\$0.07 per share for 36 months, amounted to \$358,000. The fair value was estimated using the Black-Scholes pricing model applying an expected volatility of 165%, a risk free interest rate of 1% with no expected dividend yield. The fair value of these equity instruments has been recorded as a listing fee expense.

4. ACQUISITION OF GRAPHENE LABS INC.

On December 9, 2015, the Company closed a non-arms length share exchange agreement (the "SEA") to acquire all of the issued and outstanding shares of Graphene Laboratories Inc. ("GLI"). GLI is incorporated under the laws of the Commonwealth of Massachusetts, U.S.A, and is controlled and managed by Co-Chief Executive Officers of the Company.

GLI, is active in the business of the manufacture and worldwide distribution of nanocarbon and graphene products. GLI also holds a provisional patent relating to the manufacture and processing of graphene and offers analytical services, prototype development and consulting. The addition of GLI's business and graphene product lines will complement and expand the Company's existing business of research, development and production of polymer nanocomposite graphene-based filaments for fused filament fabrication in 3D printers.

The terms of the SEA were subject to confirmation of a fairness opinion prepared by an independent business valuator, an audit of GLI's financial statements, the approval of the independent directors of the Company and the acceptance of the TSX Venture Exchange. Pursuant to the SEA, the Company has acquired all of the issued and outstanding common shares of GLI by the issuance of up to 3,800,000 common shares (the "Exchanged Shares") of the Company to the shareholders of GLI. A total of 345,500 Exchanged Shares were issued at closing, to arms-length parties, with a four month and a day hold restriction from the date of closing (the "Closing Date"), a further 600,000 Exchanged

GRAPHENE 3D LAB INC.**NOTES TO UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIODS ENDED FEBRUARY 29, 2016 AND FEBRUARY 28, 2015**(Expressed in US Dollars)

4. ACQUISITION OF GRAPHENE LABS INC. (continued)

Shares were issued to the non-arms length parties at closing and made subject to automatic releases every 6 months over the next 36 months from the Closing Date. The balance of the 2,854,500 Exchanged Shares will be issued to non-arms length parties on the basis of one common share for every C\$0.60 in cumulative cash flow generated from the operations of GLI over the next five years from June 30, 2015.

Determination of the fair value of the common shares issued is based on the closing market price of the shares on the closing date of the acquisition, December 8, 2016. The fair value of the contingent consideration has been determined using an estimation of the future cashflows of the GLI operations, including its development of its intellectual property, over the next five years. The net present value of these cashflows has been discounted using discount rate of 20%, resulting in a fair value of \$400,000 being recorded in contributed surplus for the contingent consideration to be based on cumulative GLI cash flow over the next five years.

The purchase of GLI has been accounted for as a business combination in accordance with IFRS 3 "Business Combinations". The purchase price paid is comprised of the following:

	December 8, 2016
	\$
Fixed consideration - 945,500 common shares	268,000
Contingent consideration – up to 2,854,000 shares	400,000
	<hr/> 668,000

Fair values of assets acquired and liabilities assumed:

Assets acquired:	\$
Cash	50,938
Amounts receivable	44,918
Inventory	120,929
Prepaid and deposits	7,226
Capital assets	50,769
	<hr/> 274,780
Less liabilities assumed:	
Accounts payable and accrued liabilities	37,454
Deferred income tax	90,000
	<hr/> 147,326
Net assets acquired	147,326
Intangible asset acquired	520,674
	<hr/> 668,000

As part of the GLI acquisition, the Company acquired certain intellectual property, including a provisional patent relating to technology enabling cost efficient industrial scale manufacture and processing of graphene. The Company intends to develop this technology over the next few years.
